

Curriculum Vitae

Name: Kshiti Tushar Patel
Address: Präbenweg 31, 20537 Hamburg, Germany
Email-ID: kshiti.de@gmail.com
Phone no.: +49 15510573856
Date of Birth: 19.05.1999
Profiles: [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Professional Experience

- Nov '24 – Present **Frontend Engineer | *Freelance***
- Develop and maintain high-quality, performant, and scalable frontend features for e-commerce Web Shop (Desktop, Mobile Web, Tablet) using React, JavaScript and TypeScript, serving 50K+ daily active users
 - Contribute to optimizing frontend architecture, performance (Core Web Vitals), and development workflows, achieving 60% performance improvement through code splitting and lazy loading techniques
 - Experience integrating with REST APIs and managing application state (Redux, Zustand, React Query) for complex shopping carts and real-time inventory synchronization across 15+ microservices
- Apr '21 – Aug '24 **Senior Frontend Engineer | *Tata Consultancy Services Ltd.***
- Deep experience with React and its ecosystem (hooks, context) implementing state management solutions, improving application performance by 35% and reducing load times by 2.5 seconds
 - Collaborated closely with product managers, UX designers, and QA managers to translate concepts and requirements into user-friendly and reliable features for enterprise platforms serving 176+ organizations with millions of daily transactions globally
 - Actively participated in code reviews to ensure code quality, maintainability, and adherence to best practices + Solid understanding of frontend testing frameworks (Jest, React Testing Library) achieving 90%+ test coverage across 12+ major modules
 - Took ownership of large-scale projects from conception to deployment, requiring little oversight, demonstrating high autonomy and delivering 8+ critical features with cross-functional teams of 10+ members
- Oct '20 – Feb '21 **Frontend Engineer | *Tatvasoft Ltd.***
- Took an active role in solving complex technical problems and architecting innovative, sustainable frontend solutions for e-commerce Web Shop, reducing technical debt by 40% and improving code maintainability
 - Strong skills in HTML and modern CSS (CSS-in-JS, responsive design) while fostering a culture of high-quality code, continuous learning, and knowledge sharing through weekly tech talks and mentoring 3 junior developers
 - Proficient with Git and comfortable with CI/CD workflows + Familiarity with build tools (Webpack, Vite) and package managers (npm, yarn), optimizing build times by 45%
 - Experience with server-side rendering (SSR) using Next.js + Experience working in a large-scale e-commerce environment + Gain knowledge of Node.js for backend integration and API development
 - Experience building or maintaining a design system and component library with 25+ reusable components + Strong knowledge of web performance optimization principles and accessibility (a11y) with WCAG 2.1 AA compliance + Experience with end-to-end testing tools like Cypress

Skills

Frontend	React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
Styling	CSS-in-JS (Styled Components, Emotion), Responsive Design, Tailwind CSS
State Management	Redux Toolkit, Zustand, React Query, Context API
Testing	Jest, React Testing Library, Cypress, Playwright, Unit/Integration/E2E Testing
Build Tools	Webpack, Vite, Rollup, npm, yarn, pnpm
SSR/SSG	Next.js, Server-Side Rendering, Static Site Generation
APIs & Backend	REST APIs, GraphQL, Node.js
DevOps & Tools	Git, GitHub Actions, GitLab CI/CD, Docker, Kubernetes
Design Systems	Component Libraries, Storybook, Figma Integration
Languages	English (C2), German (A1)

Projects	
Master Magical Key Digital E-commerce Platform	- Developed full-stack e-commerce platform using React, TypeScript, and Redux Toolkit with PayPal integration processing 1,500+ transactions, serving 1,000+ users with digital bookstore, subscription management, and interactive content delivery system - Built 40+ responsive components with TailwindCSS, achieved 90% test coverage with Jest, optimized performance through code splitting and lazy loading, and created admin dashboard with Chart.js analytics tracking sales and user engagement
Real-time Analytics Dashboard	- Architected real-time data visualization platform with 3 interactive chart types and instant filtering across 100+ records, implementing RTK Query patterns with conditional queries and automatic caching across 4 API endpoints, reducing API calls by 65% - Optimized performance achieving 60fps through React optimization techniques (useMemo, efficient re-rendering, debounced search), improving Core Web Vitals scores by 40% with responsive CSS Grid layout ensuring seamless experience across Desktop, Mobile Web, and Tablet

Education	Certification
Bachelors in Information Technology Charotar University of Science and Technology, India Jun '16 – Apr '20 <i>Equivalent German Grade: 1.7</i>	Frontend Developer Foundations of UX Design UX Design Process Build Wireframes and Low-Fidelity Prototypes

Additional Information	
Speaking & Teaching	Workshop & Guest Lecturer CHARUSAT University (Alumni Engagement) Conducted technical workshops on React.js and Laravel for e-commerce, educating 50+ students on modern frontend development practices Technical Mentor Women in Tech Program, Tata Consultancy Services Mentored 10+ developers on React ecosystem best practices, code quality standards, and frontend engineering career development
Interests & Community	Continuous Learning: Regularly attend frontend workshops, React conferences, and web performance seminars to stay current with emerging technologies Community Contributor: Active in frontend communities, sharing knowledge through code reviews and insights on React patterns and e-commerce optimization

Kshiti Patel
